

**THE CENTRAL BANK OF
THE REPUBLIC OF TURKEY**

**FINANCIAL STATEMENTS
AT 31 DECEMBER 2014
TOGETHER WITH AUDITOR'S REPORT**

INDEPENDENT AUDITOR'S REPORT FOR THE PERIOD 1 JANUARY - 31 DECEMBER 2014

To the Board of the Central Bank of the Republic of Turkey
Ankara

We have audited the accompanying financial statements of the Central Bank of the Republic of Turkey (the "Bank") which comprise the statement of financial position as of 31 December 2014 and the statement of profit or loss, statement of other comprehensive income, statement of cash flows and statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory notes.

The Bank Management's Responsibility for the Financial Statements

The Bank management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Bank as of 31 December 2014 and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

İstanbul, 9 March 2015

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 1 - GENERAL INFORMATION

The Central Bank of the Republic of Turkey (the "Bank") was incorporated in Turkey in 1931. It was established as a joint stock company with the exclusive privilege of issuing banknotes in Turkey and is vested with the powers and duties set forth in the Central Bank of the Republic of Turkey Law No. 1211 (the "Central Bank Law"). The Head Office of the Bank is located in Ankara. The Bank's registered head office is located at the following address: İstiklal Cad. 10 Ulus, 06100 Ankara, Turkey. The Bank now operates a nationwide network of 21 branches and has no branches abroad. As of 31 December 2014, the Bank employed 4.754 people (31 December 2013: 4.660).

The primary objective of the Bank is to achieve and maintain price stability. The Bank shall determine on its own discretion the monetary policy that it shall implement and the monetary policy instruments that it is going to use in order to achieve and maintain price stability.

The fundamental duties of the Bank are;

- a) to carry out open market operations,
- b) to take necessary measures in order to protect the domestic and international value of the Turkish Lira ("TL") and to establish the exchange rate policy in determining the parity of TL against gold and foreign currencies jointly with the Government of the Republic of Turkey ("Turkish Government"); to execute transactions such as spot and forward purchases and sales of foreign currency and banknotes, foreign currency swaps and other derivatives transactions in order to determine the value of TL against other currencies,
- c) to determine the procedures and conditions of reserve requirements by taking into consideration the liabilities of banks and other financial institutions to be deemed appropriate by the Bank,
- d) to conduct rediscount and advance transactions,
- e) to manage the gold and foreign currency reserves of the country,
- f) to regulate the volume and circulation of the TL, to establish payment, securities transfer and settlement systems and to set forth regulations to ensure the uninterrupted operation and supervision of the existing or future systems, to determine the methods and instruments including electronic environment for payments,
- g) to take precautions for enhancing the stability in the financial system and to take regulatory measures with respect to money and foreign exchange markets,
- h) to monitor the financial markets,
- i) to determine the terms and types of deposits in banks and the terms of participation funds in special finance houses.

NOTE 2 – BASIS OF PRESENTATION

(a) Turkish Lira Financial Statements

These financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS"), including the International Accounting Standards ("IAS") and Interpretations issued by the International Accounting Standards Board ("IASB"). The Bank maintains its books of account and prepares its statutory financial statements in accordance with Turkish Commercial Practice and Tax Legislation and the Central Bank Law. These financial statements have been prepared from those accounting records and adjusted as necessary in order to comply with IFRS issued by the IASB.

The financial statements are presented in TL which is the national currency of the Republic of Turkey.

These financial statements will be submitted to General Assembly of the Bank on 9 April 2015 after the approval of Board of the Bank on 13 March 2015.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 2 – BASIS OF PRESENTATION (Continued)

(b) Application of New and Revised Standards

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

The following new and revised Standards and Interpretations have been adopted in the current period and have affected the amounts reported and disclosures in these financial statements. Details of other standards and interpretations adopted in these financial statements but that have had no material impact on the financial statements are set out in the following sections.

New and Revised IFRSs affecting presentation and disclosure only

a) Amendments to IFRSs affecting amounts reported and/or disclosures in the financial statements

None.

b) New and Revised IFRSs applied with no material effect on the financial statements

Amendments to IFRS 10, 11, IAS 27	<i>Investment Entities¹</i>
Amendments to IAS 32	<i>Offsetting Financial Assets and Financial Liabilities¹</i>
Amendments to IAS 36	<i>Recoverable Amount Disclosures for Non-Financial Assets¹</i>
Amendments to IAS 39	<i>Novation of Derivatives and Continuation of Hedge Accounting¹</i>
IFRIC 21	<i>Levies¹</i>
Amendments to IAS 21	<i>The Effects of Changes in Foreign Exchange Rates²</i>

¹ Effective for annual periods beginning on or after 1 January 2014.

² Effective for annual periods beginning on or after 12 November 2014.

Amendments to IFRS 10, 11, IAS 27 *Investment Entities*

This amendment with the additional provisions of IFRS 10 provide 'investment entities' (as defined) an exemption from the consolidation of particular subsidiaries and instead require that an investment entity measure the investment in each eligible subsidiary at fair value through profit or loss.

Amendments to IAS 32 *Offsetting Financial Assets and Financial Liabilities*

The amendments to IAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realization and settlement'.

Amendments to IAS 36 *Recoverable Amount Disclosures for Non-Financial Assets*

As a consequence of IFRS 13 *Fair Value Measurements*, there are amendments in the explanations about the measurement of the recoverable amount of an impaired asset. This amendment is limited to non-financial assets and paragraphs 130 and 134 of IAS 36 has been changed.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 2 – BASIS OF PRESENTATION (Continued)

(b) Application of New and Revised Standards (Continued)

New and Revised IFRSs affecting presentation and disclosure only (Continued)

Amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting

This amendment to IAS 39 makes it clear that there is no need to discontinue hedge accounting if a hedging derivative is novated, provided certain criteria are met.

IFRIC 21 Levies

IFRIC 21 identifies the obligating event for the recognition of a liability as the activity that triggers the payment of the levy in accordance with the relevant legislation.

Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates

Subparagraph (b) of paragraph 39 of the IAS 21 *The Effects of Changes in Foreign Exchange Rates* standard is amended as follows:

“(b) Income and expenses for each statement of comprehensive income or separate income statement presented (including comparatives) shall be translated at exchange rates at the dates of the transactions.”

c) New and revised IFRSs in issue but not yet effective

The Bank has not applied the following new and revised IFRSs that have been issued but are not yet effective:

IFRS 9	<i>Financial Instruments</i>
Amendments to IFRS 9 and IFRS 7	<i>IFRS 9 and Mandatory Effective Date and Transition Disclosures¹</i>
Amendments to IAS 19	<i>Defined Benefit Plans: Employee Contributions¹</i>
Annual Improvements to 2010-2012 Cycle	<i>IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16 and IAS 38, IAS 24, IFRS 9, IAS 37, IAS 39¹</i>
Annual Improvements to 2011-2013 Cycle	<i>IFRS 3, IFRS 13, IAS 40¹</i>
Amendments to IAS 16 and IAS 38	<i>Clarification of Acceptable Methods of Depreciation and Amortisation²</i>
Amendments to IAS 16 and IAS 41 with amendments to IAS 1, IAS 17, IAS 23, IAS 36 and IAS 40.	<i>Agriculture: Bearer Plants²</i>
Amendments to IFRS 11 and IFRS 1	<i>Accounting for Acquisition of Interests in Joint operations²</i>

¹ Effective for annual periods beginning on or after 30 June 2014.

² Effective for annual periods beginning on or after 31 December 2015.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 2 – BASIS OF PRESENTATION (Continued)

(b) Application of New and Revised Standards (Continued)

New and Revised IFRSs affecting presentation and disclosure only (Continued)

IFRS 9 Financial Instruments

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 was amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition.

Amendments to IFRS 9 and IFRS 7 Mandatory Effective Date and Transition Disclosures

In November 2013, mandatory effective date of the standard was postponed for annual periods beginning on or after 1 January 2018.

Amendments to IAS 19 Defined Benefit Plans: Employee Contributions

This amendment clarifies the requirements that relate to how contributions from employees or third parties that are linked to service should be attributed to periods of service. In addition, it permits a practical expedient if the amount of the contributions is independent of the number of years of service, in that contributions, can, but are not required, to be recognised as a reduction in the service cost in the period in which the related service is rendered.

Annual Improvements to 2010-2012 Cycle

IFRS 2: Amends the definitions of 'vesting condition' and 'market condition' and adds definitions for 'performance condition' and 'service condition'

IFRS 3: Require contingent consideration that is classified as an asset or a liability to be measured at fair value at each reporting date.

IFRS 8: Requires disclosure of the judgements made by management in applying the aggregation criteria to operating segments, clarify reconciliations of segment assets only required if segment assets are reported regularly.

IFRS 13: Clarify that issuing IFRS 13 and amending IFRS 9 and IAS 39 did not remove the ability to measure certain short-term receivables and payables on an undiscounted basis (amends basis for conclusions only).

IAS 16 and IAS 38: Clarify that the gross amount of property, plant and equipment is adjusted in a manner consistent with a revaluation of the carrying amount.

IAS 24: Clarify how payments to entities providing management services are to be disclosed.

Annual Improvements to 2011-2013 Cycle

IFRS 3: Clarify that IFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.

IFRS 13: Clarify the scope of the portfolio exception in paragraph 52.

IAS 40: Clarifying the interrelationship of IFRS 3 and IAS 40 when classifying property as investment property or owner-occupied property.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 2 – BASIS OF PRESENTATION (Continued)

(b) Application of New and Revised Standards (Continued)

New and Revised IFRSs affecting presentation and disclosure only (Continued)

Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortisation*

This amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment, and introduces a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendment also adds guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

Amendments to IAS 16 and IAS 41 with Amendments to IAS 1, IAS 17, IAS 23, IAS 36 and IAS 40 *Agriculture: Bearer Plants*

This amendment includes "bearer plants" within the scope of IAS 16 rather than IAS 41, allowing such assets to be accounted for as property, plant and equipment and measured after initial recognition on a cost or revaluation basis in accordance with IAS 16. The amendment also introduces a definition of 'bearer plants' as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales, and clarifies that produce growing on bearer plants remains within the scope of IAS 41.

Changes in IAS 16 and IAS 41 affected relevant parts of IAS 1, IAS 17, IAS 23, IAS 36 and IAS 40.

Amendments to IFRS 11 and IFRS 1 *Accounting for Acquisition of Interests in Joint operations*

This amendment requires an acquirer of an interest in a joint operation in which the activity constitutes a business to:

- apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11
- disclose the information required by IFRS 3 and other IFRSs for business combinations.

Changes in IFRS 11 affected relevant parts of IFRS 1.

The Bank evaluates the effects of these standards on the financial statements.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 2 – BASIS OF PRESENTATION (Continued)

(c) Accounting for the effect of hyperinflation

Prior to 1 January 2006, the adjustments and reclassifications made to the statutory records for the purpose of fair presentation in accordance with IFRS included the restatement of balances and transactions for the changes in the general purchasing power of the Turkish Lira in accordance with IAS 29 "Financial Reporting in Hyperinflationary Economies". IAS 29 requires that the financial statements prepared in the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the balance sheet date. As the characteristics of the economic environment of Turkey indicate that hyperinflation has ceased, effective from 1 January 2006, the Bank no longer applies the provisions of IAS 29. Accordingly, the amounts expressed in the measuring unit current at 31 December 2005 are treated as the basis for the carrying amounts in these financial statements.

(d) US\$ translation

US\$ amounts shown in the balance sheets are translated from TL for convenience purposes only, at the official bid rates announced by the Bank on 31 December 2014 of TL 2,3189 = US\$ 1 (31 December 2013: TL 2,1343 = US\$ 1) and US\$ amounts shown in the income statements are translated from TL for convenience purposes only, at the average US\$ bid rates calculated from the daily official bid rates announced by the Bank for the year ended 31 December 2014 of TL 2,18652 = US\$ 1 (31 December 2013: TL 1,90334 = US\$ 1) and therefore, do not form part of these financial statements.

(e) Comparatives

In order to allow the determination of the financial position and performance trends, the financial statements of the Bank are prepared comparatively with the prior period. Certain classifications are made in the previous year financial statements and the significant differences are disclosed in order to maintain comparability with the current year cash flow statement. The Bank hasn't made any reclassification on the previous year's financial statements.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Foreign currency translation

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("TL").

In preparing the financial statements of the individual entities, transactions in currencies other than TL (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange rates

The following TL exchange rates for major currencies are used to convert foreign currency assets and liabilities to TL for reporting purposes.

	<u>31 December 2014</u>	<u>31 December 2013</u>
US Dollar ("US\$")	2,3189	2,1343
Euro ("EUR")	2,8207	2,9365
Swiss Franc ("CHF")	2,3397	2,3899
Great Britain Pound ("GBP")	3,5961	3,5114
Japanese Yen ("JPY")	0,0193	0,0202
Special Drawing Rights ("SDR") (*)	3,3611	3,2895

(*) The SDR is treated in terms of a basket of currencies. Its value is determined as the weighted sum of the exchange rates of the four major currencies (EUR, JPY, GBP, US\$). For accounting purposes, SDR is treated as a foreign currency.

(b) Interest income and expense

Interest income and expenses are recognized on an accrual basis taking into account the internal rate of return method.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(c) Fee and commission income

Fee and commission income and expenses and fees and commissions paid to the other financial institutions are recognized over the period of the related transaction or in the period they are paid or collected depending on their nature.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Bank's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which is used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences, except where the Bank is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Bank expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Bank intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax are recognized as an expense or income in profit or loss, except when they relate to items that are recognized outside profit or loss (whether in other comprehensive income or directly in equity), in which case the tax is also recognized outside profit or loss, or where they arise from the initial accounting for a business combination.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Gold reserves

Gold bullion

Gold bullion consists of the stocks of gold bars of international standard and non-international standard held at the Bank, at BIST and held with correspondents. Gold is held by the Bank as part of its foreign currency reserves and represents 15,12% (31 December 2013: 14,70%) of aggregate foreign currency reserves. The Bank has no present intention to dispose of any of its existing gold reserve stocks as the Bank maintains the gold reserve as a part of its foreign currency reserve management. Gold bullion is recorded in physical weight in troy ounces.

Gold is initially recorded at the prevailing rates at recognition date, excluding transaction costs. Subsequent to initial measurement, it is measured at fair value. Fair value is the amount which could be realized from the sale of an asset in an arm's length transaction between knowledgeable, willing parties and is calculated based on the fixing of the London Bullion Market in US\$, converted to TL at the spot TL/US\$ exchange rate.

Gains and losses from the valuation of gold bullions arising as a result of the changes in the fair value are accounted for as other comprehensive income.

The exchange rate of gold bullion to TL as of 31 December 2014 was TL 2.780 per troy ounce (31 December 2013: TL 2.564 per troy ounce).

Gold coins

Gold coins which are no longer legal tender typically have an artistic or collectors' premium such that they are bought and sold at prices which are higher than the intrinsic value of the metal from which they are formed. However, it is unlikely that such a premium could be realized if the Bank were to release a significant quantity of the coins it holds. Consequently coins are valued at the market value of the gold content and included within gold bullion in the balance sheet. Gains and losses on gold coins are treated and reported consistently with those for gold bullion.

(f) Financial assets

Financial assets are classified into the following specified categories: financial assets as 'at fair value through profit or loss' (FVTPL), 'held-to-maturity investments', 'available-for-sale' (AFS) financial assets and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading and those designated at fair value through profit or loss at inception. The Bank's financial assets at fair value through profit or loss are held for trading financial assets. A financial asset is classified as held for trading if acquired principally for the purpose of selling in the short term. Trading securities are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, trading securities are measured at fair value and gains and losses arising from a change in the fair value are recognized in the income statement. Differences between the fair value and cost of trading securities are also recorded in "financial assets held for trading" line on the balance sheet.

Interest earned whilst holding trading securities is reported as interest income.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Financial assets (Continued)

Investment securities held-to-maturity

Held-to-maturity securities are financial assets with fixed maturities and pre-determined payment schedules that the Bank has the intent and ability to hold until maturity, excluding loans and receivables. Investment securities held-to-maturity are initially recognized at cost, and subsequently carried at "amortized cost" using the "internal rate of return method"; and provision is made for impairment if any. The Bank has no investment securities held-to-maturity.

Loans and receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortized cost using the effective interest method less any impairment. Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Investment securities available-for-sale

Available-for-sale assets are financial assets that are not loans and receivables, held to maturity investments and financial assets at fair value through profit or loss. The Bank's investments in equity instruments, which are not traded in an active market and stock exchange, are classified as available for sale financial assets. Investment securities are initially recognized at transaction prices, which normally reflect their fair values.

Available-for-sale investment debt and equity securities are subsequently remeasured at fair value based on quoted bid prices, or amounts derived from other valuation techniques. Unrealized gains and losses arising from changes in the fair value of securities classified as available-for-sale are recognized in the equity as "other reserves", unless there is a permanent decline in the fair values of such assets, in which case they are charged to the income statement. Impairment losses recognized in the income statement on equity instruments are not reversed through the income statement. Equity securities for which fair values cannot be measured reliably are recognized at cost less impairment. When the securities are disposed of or impaired, the related accumulated fair value adjustments are transferred to the income statement.

Gains and losses arising from changes in foreign exchange rates are recognized in the income statement in the case of debt securities and are included with the fair value movement under equity in the case of equity securities.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for debt instruments other than those financial assets designated as at FVTPL.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Financial assets (Continued)

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted. For financial assets carried at amortized cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

With the exception of AFS equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been, had the impairment not been recognized.

Any increase in fair value subsequent to an impairment loss is recognized in other comprehensive income.

(g) Loans and advances to customers and provision for loan impairment

Loans originated by the Bank by providing money directly to the borrower are categorized as loans originated by the Bank and are carried at amortized cost, less any provision for loan losses. All originated loans are recognized when cash is advanced to borrowers.

A credit risk provision for loan impairment is established if there is objective evidence that the Bank will not be able to collect all amounts due. The amount of the provision is the difference between the carrying amount and recoverable amount, being the present value of expected cash flows, including the amount recoverable from guarantees and collateral, discounted based on the interest rate at inception.

The provision made during the year is charged against income for the year. Loans that can not be recovered are written off and charged against the allowance for loan losses. Such loans are written off after all the necessary legal proceedings have been completed and the amount of the loan loss is finally determined. Recoveries of amounts previously provided for are treated as a reduction from the provision for loan losses for the year.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Financial liabilities

Financial liabilities and equity instruments issued by the Bank are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Bank after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL. Financial liabilities at FVTPL are stated at fair value, with any resultant gain or loss recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in 'other gains/losses' line in the statement of comprehensive income. The Bank has no financial liabilities at fair value through profit or loss.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

(i) Sale and repurchase agreements

Securities sold under agreements to repurchase are reclassified in the financial statements as financial assets at fair value through profit or loss and the "counterparty liability" is included in amounts "due to banks" or "other deposits" as appropriate. Securities purchased under agreements to resell are recorded as due from banks. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest rate method.

Securities lent to counterparties are also retained in the financial statements. Securities borrowed and securities received as collateral for securities purchased under agreements to resell transactions are not recognized in the financial statements, unless these are sold to third parties, in which case the purchase and sale are recorded with the gain or loss included in trading income. The obligation to return them is recorded at fair value as a trading liability.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Money issuance

The Bank has the exclusive privilege of issuing banknotes. Stocks of banknotes in issuance which are in process at the Bank's own printing facilities are stated at cost and included in "Other Assets". Expenses associated with the banknotes are initially capitalized and are charged to the income statement upon transfer of the banknotes to reserve banknotes depot of the Bank. Costs of printed banknotes and banknotes in issuance include direct costs, depreciation, staff costs, costs for transportation of banknotes and other issuance costs. The unit cost of raw materials is determined on the moving weighted average basis.

When banknotes are returned to the Bank by the commercial banks via collection transactions, they are deducted from notes in circulation and depending on their condition or legal tender status, are either sent for destruction or included in the reserve banknotes depot of the Bank.

(k) Property and equipment

Land and buildings comprise mainly branches of the Bank.

Property and equipment are carried at cost less accumulated depreciation and any accumulated impairment losses.

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

The useful lives of the property and equipment are as follows;

Buildings	25-50 years
Equipment and motor vehicles	2-50 years

(l) Intangible assets

Intangible assets acquired separately

Intangible assets acquired separately are reported at cost less accumulated amortization and accumulated impairment losses. Amortization is charged on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Trademarks and licenses

Acquired trademarks and licenses are shown at historical cost. Trademarks and licenses have a finite useful life and are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method to allocate the cost of trademarks and licenses over their estimated useful lives.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Intangible assets (Continued)

Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives. (3-15 years)

Costs associated with developing or maintaining computer software programmes are recognized as an expense as incurred. Costs that are directly associated with the development of identifiable and unique software products controlled by the Bank, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets. Costs include the software development employee costs and an appropriate portion of relevant overheads. Computer software development costs recognized as assets are amortized over their estimated useful lives.

(m) Banknotes in circulation

Currency in Circulation - Turkish Lira

Currency issued by the Bank represents a claim on the Bank in favor of the holder. The liability for currency in circulation is recorded at face value in these financial statements.

Demonetized Currency - Turkish Lira and New Turkish Lira

The legal circulation period of Turkish Lira banknotes, which were in circulation along with New Turkish Lira banknotes between 1 January 2005 and 31 December 2005 according to provisional article 1 of the Law on the Currency Unit of the Republic of Turkey No:5083, expired as of 31 December 2005 and these banknotes will be redeemed for a period of ten years starting from 1 January 2006 to the close of business at 31 December 2015 which is the end of the 10-year legal redemption period, at the branches of the Bank and T.C. Ziraat Bankası A.Ş.. The banknotes will be of no value as of 1 January 2016.

With the Council of Ministers' decision issued in Official Gazette on 5 May 2007, it was decided that the phrase "New" on the New Turkish Lira and New Kuruş that were put into circulation on 1 January 2005, are removed as of 1 January 2009, and Turkish Lira banknotes have been put into circulation as of the same date. Accordingly, the legal circulation period of New Turkish Lira banknotes that were in circulation between 1 January 2009 and 31 December 2009 along with Turkish Lira banknotes are expired as of 31 December 2009. New Turkish Lira banknotes will be redeemed for a period of 10 years starting from 1 January 2010 to 31 December 2019 in the Bank and branches of the T.C. Ziraat Bankası A.Ş..

It is most unlikely that significant amounts of demonetized currency will be returned for redemption. The Bank is not able to derecognize any part of the liability unless and until it is legally released from the obligation.

The liability for Turkish Lira and New Turkish Lira banknote in circulation is recorded at face value under "Currency in circulation" in these financial statements.

As of 31 December 2011, the Bank has recorded gain of TL 4.893 thousand under the capital reserves due to banknotes those have been take out of circulation and have expired but still outstanding.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Provisions

Provisions are recognized when the Bank has a present obligation as a result of a past event, and it is probable that the Bank will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation.

Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(o) Retirement benefit obligations

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Bank. Such payments are considered as being part of defined retirement benefit plan as per International Accounting Standard No. 19 (revised) "Employee Benefits" ("IAS 19").

The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation. All the actuarial gains and losses are accounted for as other comprehensive income that will not be subsequently reclassified to profit or loss.

(p) Related parties

For the purpose of these financial statements the shareholders of the Bank together with state-controlled entities are considered and referred to as related parties.

(r) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments which their maturities are three months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

(s) Profit distribution

In accordance with the Article 60 of the Central Bank Law, the distribution of the statutory net annual profit of the Bank is as follows:

- i) 20% to the reserve fund,
- ii) 6% over the nominal value of the equity shares to the shareholders as an initial dividend,
- iii) After deducting the above-stated percentages a maximum of 5% of the remaining amount; so as not to exceed two months salaries; to the Bank personnel and 10% percent to the extraordinary reserves,
- iv) Subject to the decision of the General Assembly a maximum of 6% over the nominal value of the equity shares to the shareholders as the secondary dividend.

The remaining balance shall be transferred to Prime Ministry Undersecretariat of Treasury ("Turkish Treasury") after this allocation.

As the Bank maintains its books of account and prepares its statutory financial statements in accordance with Turkish Commercial Code, tax legislation and the Central Bank Law; according to the Central Bank Law the profit of the Bank which is subject to the profit distribution is the net period profit in the statutory books of the Bank prepared in accordance with the Tax Law numbered 213.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(t) Fiduciary activities

The Bank commonly acts as trustees and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals and financial institutions. These assets and income arising thereon are excluded from these financial statements, as they are not assets or income of the Bank. Fiduciary capacity at 31 December 2014 and 2013 is as follows:

	<u>31 December 2014</u>	<u>31 December 2013</u>
Securities held in custody	353.874.094	345.881.812
Total	353.874.094	345.881.812

NOTE 4 - FINANCIAL RISK MANAGEMENT

(a) Strategy in using financial instruments

By nature, the Bank's activities require the use of financial instruments. The Bank accepts deposits from other banks and public institutions; the required reserves from banks and financial institutions operating in Turkey; and foreign currency deposits from Turkish citizens resident abroad. The Bank also accepts or places short-term funds/securities through open market operations in order to influence short-term interest rate, which is the primary tool of monetary policy to achieve the inflation target and establish price stability.

Foreign currency deposits placed with the Bank and foreign currency acquired by the Bank through regular auctions and direct purchases constitute the sources of foreign currency reserves of the Bank. The Bank holds foreign currency reserves both for meeting its own foreign currency liabilities and for the purposes of rendering foreign debt service with the capacity of the financial agent of the Turkish Government, maintaining foreign exchange liquidity against external shocks, underpinning implementations of monetary and exchange rate policies, and providing confidence to the markets. In view of the Bank's priorities of safe investment, liquidity and return, respectively, as stipulated by the Central Bank Law, the Bank directs its foreign currency reserves to investments in international markets with a prudent approach.

In this framework, almost all the financial risks to which the Bank is exposed arise while fulfilling its legal duties, such as implementing monetary and exchange rate policies, managing foreign currency reserves and rendering certain banking services to the banking sector and the Turkish Government. The Bank is exposed to credit, market and liquidity risks due to the aforementioned operations. The financial risks to which the Bank, as a monetary authority, is exposed in the process of the implementation of monetary and exchange rate policies are the consequences of the selected policy targets. On the other hand, financial risks that arise during the management of foreign currency reserves are the outcome of an investment choice. Nevertheless, the Bank endeavors to minimize such risks by managing them with a conservative approach. Foreign currency reserves are managed by observing the investment criteria defined in the Foreign Currency Reserve Management Guidelines ("the Guideline") approved by the Board of the Bank and in compliance with the targets and limits stipulated in the Benchmark Portfolio ("BP"), which is set at the end of each year by the Foreign Currency Risk and Investment Committee and put into force the following year upon the approval of the Executive Committee.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk

During its financial operations, the Bank is exposed to credit risk, defined as the probability of complete or partial failure of counterparty to fulfill its obligations arising from a financial transaction. The credit risk basically originates from the open market operations carried out in order to provide short-term liquidity to banks within the framework of monetary policy implementations, the funds extended to banks under the Intra-Day Limit Facility in order to ensure the proper functioning of payment systems, and the investments made during foreign currency reserve management. Although the credit risk faced during the implementation of monetary policy and Intra-Day Limit transactions is an inevitable risk, such risks are managed by securing the entire transaction amount, also including a certain amount of margin, by assets that have high credit quality and are tradable in secondary markets (foreign currency deposits, government securities and securities issued by the treasuries of developed countries), and through monitoring the existing risks regularly and requesting additional collateral, when necessary.

The management of the credit risk that the Bank is exposed to during the foreign currency reserve management is based on the principle of minimizing the default probabilities of the counterparties and the financial loss in case of default. In this framework, the Bank implements a three-stage risk management process in order to minimize the credit risk arising from foreign currency reserve management operations. In the first stage, the Bank confines its investments to the leading international financial institutions and debtors that meet the minimum credit rating criteria specified in the Guideline based on the credit ratings given by the international credit rating agencies. Accordingly, the Bank can take on exposure to banks having at least A1 or an equivalent credit rating, with a maturity of up to one year; while it can invest in securities issued or directly guaranteed by foreign governments which have at least A2 or an equivalent credit rating, in their domestic currencies as long as the remaining maturity is 10 years at the most. The Bank can also invest in securities issued by the World Bank, the Bank for International Settlements ("BIS"), European Investment Bank, International Monetary Fund ("IMF"), Islamic Development Bank Group and International Islamic Liquidity Management Corporation ("IILM"), regardless of the credit rating criteria. In the second stage, the total transaction limit, expressed as a percentage of total reserves, is specified in order to control overall credit risk including settlement risk arising from transactions with financial institutions. By setting this overall credit risk limit within the scope of the BP set each year, the Bank aims to prevent non-sovereign credit risk from exceeding its risk tolerance. In the third stage, the institutions eligible for transactions are chosen among those institutions meeting the minimum credit rating criteria set in the Guideline, using the fundamental and the financial analysis methods each institution is granted a certain credit risk limit in view of their capital size and credit quality. In all transactions executed with these institutions, credit risk exposures that are calculated on the basis of transaction type are immediately reflected on their limits, and the use of these limits are regularly monitored and reported.

In conclusion, the credit risk assumed during reserve management remains at quite low levels as a great portion of reserves are invested in assets issued or directly guaranteed by foreign governments as well as by supranational institutions.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk (continued)

Total assets of the Bank exposed to the credit risk as of 31 December 2014 and 2013 are presented in the table below according to different asset classes (classification according to external credit ratings is done based on the credit ratings published by Moody's):

	31 December 2014		31 December 2013

Other assets	-	-	-	-
Total	321.070.055	100	294.523.970	100

Although the Turkish Government bonds issued by the Turkish Treasury are included in the above table, the Bank does not consider its receivables from the Turkish Treasury as risky in terms of credit risk and therefore does not take these assets into account when calculating its credit risk exposures. Similarly, the receivables from domestic commercial banks for the purpose of monetary policy implementations are also excluded when calculating credit risk exposures because of the fully collateralized nature of these transactions as previously explained. As of 31 December 2014, the Bank has receivables amounting to TL 46,254,099 thousand (31 December 2013: TL 39,007,450 thousand) placed with domestic commercial banks as part of securities purchased under agreements to resell. The fair value of the security collaterals obtained for the deposits placed under securities purchased under agreements to resell as of 31 December 2014 is TL 46,287,689 thousand (31 December 2013: TL : 40,712,338 thousand).

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk (continued)

In addition, as of 31 December 2014, the Bank has security collaterals obtained for all foreign exchange markets operations including the placed deposits under foreign currency deposit market operations amounting to TL 1.667.203 thousand (31 December 2013: TL 2.247.469 thousand). As of 31 December 2014 and 2013, the security collaterals are the Turkish Government bonds issued by the Turkish Treasury.

The sectoral classifications of the Bank's credit exposure as of 31 December 2014 and 2013 are as follows:

	31 December 2014						Total
	Foreign Country Treasury	Foreign Central Banks	Supranational Financial Institutions	Domestic Financial Institutions	Foreign Financial Institutions	Turkish Treasury	
Due from banks	-	9.459.129	3.461.828	46.454.162	3.793.269	-	63.168.388

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk (Continued)

The Bank provides specific allowances for possible loan losses on a case by case basis that are approved by the Board of the Bank and actual allowances established take into account the value of any collateral or third party guarantees. Allowances for possible loan losses are defined as the difference between the carrying amounts and the present value of expected future cash flows, including amounts recoverable from guarantees and assessed collateral, discounted at the original effective interest rate of the loan.

Restructuring activities mainly include extended and/or rescheduled payment arrangements or arrangement of terms of loans such as modification and deferral of payments. Restructuring arrangements signed between the Bank and the counterparties are regulated by the Board of the Bank.

There are no financial assets that are past due but not impaired at 31 December 2014 and 2013; therefore, there are no collaterals held against such past due financial assets.

As of 31 December 2014 and 2013, the Bank has no assets held for resale.

(c) Market risk

Market risk signifies the probability of incurring a loss as a result of fluctuations in financial market prices. The most significant sources of the market risk, from the Central Bank's perspective are interest rates pertaining to TL and reserve currencies, foreign exchange rates and gold prices. The Bank, in its capacity as the monetary authority of Turkey, does not actively manage TL interest rate risk stemming from government domestic borrowing securities, which the Bank utilizes mainly for open market operations. Putting aside this TL interest rate risk, it is possible to say that the remaining market risk faced by the Bank arises essentially from the foreign currency assets and liabilities on its balance sheet.

For the purpose of managing market risk, the Bank has adopted the "Asset/Liability Matching" approach in view of its policy targets and its objectives for holding reserves. Nevertheless, unlike the commercial banks, the liabilities addressed within the context of this approach contain estimated off-balance sheet cash flows such as foreign debt payments to be effected on behalf of the Treasury, in addition to the foreign currency liabilities on the Bank's balance sheet. Within the framework of this approach, the BP is set each year to reflect the Bank's risk tolerance. The Bank strives to minimize the market risk by setting targets for currency composition and duration which are the basic variables of the BP and by setting limits to control deviations from these targets.

(d) Currency risk

The Bank is exposed to currency risk as it holds a foreign currency position for the purpose of implementing exchange rate policy and achieving other policy targets. Exchange rate risk, which arises from the volatility of exchange rates between TL and foreign currencies on the balance sheet, is directly related to the size of the net balance sheet position in foreign currency. Moreover, the overall net foreign currency position on the balance sheet is the consequence of monetary and exchange rate policies implemented. However, the distribution of net positions in terms of currencies also affects the foreign exchange rate risk exposure of the Bank as a result of the volatilities in currency parties.

Within this framework, the Bank controls currency risk through foreign currency composition targets and limits of deviation from these targets set for foreign currency reserves within the scope of the BP.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(d) Currency risk (Continued)

In order to measure the sensitivity of the foreign exchange gain/loss against volatility in exchange rates, foreign currency net position values were re-calculated under the assumption of the appreciation of the TL by 10% against all foreign currencies. The hypothetic loss that would occur in the total market value of the net foreign currency positions of the Bank as of 31 December 2014 and 2013 under such an assumption is presented in the tables below:

Sensitivity of the net foreign currency position:

	31 December 2014									
	Foreign currency									
	US\$	EUR	JPY	CHF	GBP	SDR	Other	Total	TL	TOTAL
Total assets	259.849.891	43.682.464	752.409	583.023	3.325.049	3.281.271	3.320.867	314.794.974	56.795.385	371.590.359

(e) Interest rate risk

Bank is exposed to the interest rate risk which is the probability of incurring losses due to the fluctuations in the interest rates in the market. Such an exposure can result from a variety of factors, including differences in the timing between the maturities or re-pricing of assets, liabilities, and off-balance sheet instruments. Changes in the level and shape of yield curves may also create interest rate risk.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(e) Interest rate risk (Continued)

The tables below summarize the Bank's exposure to interest rate risk at 31 December 2014 and 2013, for TL and foreign currency denominated assets and liabilities. Presented in the tables are the Bank's assets and liabilities in carrying amounts classified in terms of time remaining to contractual re-pricing dates or maturity.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(e) Interest rate risk (Continued)

As the Bank is the monetary authority in Turkey, the interest rate sensitive balance sheet positions in the tables should be interpreted carefully. Required reserves are calculated over total domestic liabilities of banks according to the banking legislation effective in Turkey, after deductions determined in the Communiqué, No. 2005/1 on Required Reserves and deposit/participation funds accepted by banks in Turkey on behalf of foreign branches and loan amounts provided by banks and followed up in foreign branches and are deposited to the Bank. The Bank stopped paying interest over foreign currency reserve requirements as of 11 December 2008 with the announcement, dated 5 December 2008. On 23 September 2010 a major policy change has been submitted in Turkish Lira reserve requirements. To provide more active usage of reserve requirements in order to reduce the future macroeconomic and financial risk, interest payment for Turkish Lira reserve requirements has been abolished by the Bank. However, it should be noted that similar to any other central bank, the Bank, which uses short-term interest rates as its main monetary policy tool, does not actively manage the interest rate risk stemming from TL assets and liabilities considering that it might contradict the monetary policy implementations of the Bank. Nevertheless, the tables are prepared using all assets and liabilities including asset and liabilities denominated in TL to show the overall interest rate risk that the Bank is exposed to regardless of whether such risk is actively managed or not.

The Bank controls the interest rate risk arising from foreign reserve assets by setting maturity targets for the major reserve currencies within the scope of the BP. While setting targets for maturities, the Bank makes use of the "duration" values that are considered to be an important indicator of the level of interest rate risk. Meanwhile, the BP duration targets, which show the Bank's overall tolerance level to interest rate risk, are determined based on the maturity composition of the on-balance sheet liabilities and the off-balance sheet estimated cash flows, and some limits are specified for deviations from these duration targets.

For measuring the sensitivity of the Bank's foreign currency reserves to interest rate risk, it is possible to forecast the effect of changes in the related interest rates on the market value of assets by using the average modified durations of assets denominated in major foreign reserve currencies (US\$ and EUR).

Within this framework, based on the average modified durations of foreign currency assets as of 31 December 2014 and 2013, the prospective decline in the market values of the assets in case of a 1% rise in the related interest rates are presented below. The 1% rise scenario is based on the assumption that the yield curves for the related currencies shift 1% upwards in all maturities simultaneously.

Sensitivity of the market value of foreign currency assets to interest rates;

	31 December 2014			31 December 2013		
	US\$	EUR	TOTAL	US\$	EUR	TOTAL
Market value of the foreign currency assets	185.571.827	36.255.144	221.826.971	119.684.520	85.235.552	204.920.072
Effect of the scenario of 1% increase in interest rates	(1.112.398)	(582.803)	(1.695.201)	(1.029.847)	(784.220)	(1.814.067)

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(e) Interest rate risk (Continued)

The tables below set out the average effective interest rates by major currencies for monetary financial instruments at 31 December 2014 and 2013:

	31 December 2014		
	US\$ (%)	EUR (%)	TL (%)
Assets			
Due from banks	0,11	0,03	8,51
Financial assets at fair value through profit or loss	0,16	-	8,40
Loans and advances to customers	0,43	0,31	-
Liabilities			
Due to banks	-	-	7,50
Other deposits	0,25	0,31	8,25

	31 December 2013		
	US\$ (%)	EUR (%)	TL (%)
Assets			
Due from banks	0,09	0,07	7,10
Financial assets at fair value through profit or loss	0,16	0,20	9,82
Loans and advances to customers	0,46	0,47	-
Liabilities			
Due to banks	-	-	3,50
Other deposits	0,25	0,43	5,00

(f) Liquidity risk

Liquidity risk is defined as having difficulty in finding sufficient cash to meet the commitments that are due or being compelled to convert assets into cash at prices lower than their fair value. Since the Bank functions as the lender of last resort of the Turkish banking system, it is not relevant to mention TL liquidity risk. In order to manage the liquidity risk arising from assets and liabilities denominated in foreign currencies, the Bank tries to match its cash flows in currencies and invests only in highly liquid assets in order to avoid any problems meeting unexpected payments.

Total financial liabilities	119.403.352	173.072.218	657.614	4.547.242	5.743.455	-	-	303.423.881

(g) Operational risk

Operational risk is the risk of loss due to human or system errors, incompatibility or failure of internal business processes, or external events.

The Bank seeks to minimize losses from operational risk by establishing effective internal control systems which prevent or detect all errors and situations which might cause losses through failure of people or processes in such a way that losses are avoided or reduced to the minimum extent possible.

The Bank has assigned the responsibility for managing the operational risk to the managements of the departments. According to the decrees of the Board of the Bank, financial losses occurring as a result of operational risk are reported to the appropriate management levels depending on the amount of the financial loss. The limits associated with losses are updated by the Board of the Bank whenever deemed necessary. The financial loss is recorded under the non-deductible expenses account upon the approval of the authorized management level. The recorded losses are quarterly reported to the Board of the Bank.

The assessment of risks in terms of their effects and probabilities (including operational risk) and the adequacy, effectiveness and efficiency of the controls established to mitigate the risks are made via audits conducted by the Audit Department ("AD") of the Bank that reports directly to the Governor.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(g) Operational risk (Continued)

AD performs risk assessment in two phases. The first phase is to prepare the Annual Audit Plan. AD reviews the fundamental business processes throughout the Bank at the end of each year. Business processes to be audited are ranked on a risk-basis. Each business process is evaluated in terms of financial risk, operational risk, legal risk and reputation risk. Business processes with the highest-ranking risks are included in the following year's Annual Audit Plan.

In the second phase, in every audit assignment processes with higher risk are examined in more detail in terms of risks and controls. Risks that may arise due to human error, system failure, insufficient/ineffective procedures and/or sub-processes are determined. The audited business process is assessed with regard to business continuity procedures, physical safety, system safety, conformity to legal arrangements and written rules, sufficiency of human resources and information safety. In addition, the financial risk and reputation risk are also determined. Controls that are designed to reduce these risks to acceptable levels are assessed in terms of sufficiency and effectiveness; additional controls are proposed in order to increase effectiveness.

Following the audits, the major risks and recommendations are reported every three months to the Executive Committee. Action plans that are taken to reduce the risks to acceptable levels are monitored.

(h) Fair value of financial instruments

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

The estimated fair values of financial instruments have been determined by the Bank using available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to develop the estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Bank could realize in a current market exchange.

The following table summarizes the carrying amounts and fair values of those financial assets and liabilities not presented on the Bank's balance sheet at their fair value.

	Carrying value		Fair value	
	31 December 2014	31 December 2013	31 December 2014	31 December 2013
Financial assets				
Gold reserves	47.591.303	43.112.273	47.591.303	43.112.273
Due from banks	63.168.388	60.562.183	63.201.978	62.267.070
Loans and advances to customers	19.340.672	13.319.157	19.349.515	13.326.588
Financial liabilities				
Currency in circulation	85.118.222	74.814.590	85.118.222	74.814.590
Due to banks	211.478.898	188.585.937	211.478.898	188.585.937
Other deposits	29.998.564	39.767.473	29.959.121	39.705.559
Other borrowed funds	32.307	208.520	32.307	208.520

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(h) Fair value of financial instruments (Continued)

The following methods and assumptions were used to estimate the fair value of the Bank's financial instruments:

(i) Financial assets

The fair values of certain financial assets carried at amortized cost, including cash and due from banks are considered to approximate their respective carrying values due to their short-term nature.

The fair value of loans and advances to customers, along with the related allowances for uncollectibility, is based on discounted cash flows using interest rates prevailing at the balance sheet date with similar assets.

(ii) Financial liabilities

The fair value of currency in circulation represents the face value of the notes in issue.

The fair values of certain financial liabilities carried at amortized cost, including due to banks and other borrowed funds are considered to approximate their respective carrying values due to their short-term nature.

The estimated fair value of other deposits without a quoted market price is based on discounted cash flows using money market interest rates prevailing at the balance sheet date with similar credit risk, currency and maturity.

The following table summarizes the fair values of those financial assets presented on the Bank's balance sheet based on the hierarchy of valuation technique as of 31 December 2014 and 2013.

31 December 2014	Level 1 (*)	Level 2 (**)	Level 3 (***)	Total
Financial assets at fair value through profit and loss				
Financial assets held for trading				
- Debt securities	237.932.565	-	-	237.932.565
Available-for-sale financial assets				
- Equity securities	-	628.430	-	628.430
Total assets	237.932.565	628.430		238.560.995

(*) Financial assets and liabilities are carried at quoted prices in an active market which are used for similar financial assets and liabilities.

(**) Other than quoted prices specified in Level I, financial assets and liabilities are carried at inputs used to determine direct or indirect observable market prices.

(***) Financial assets and liabilities are carried at inputs which are used in determining fair value of financial assets and liabilities but not based on any observable market data.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 4 - FINANCIAL RISK MANAGEMENT (Continued)

(h) Fair value of financial instruments (Continued)

31 December 2013	Level 1 (*)	Level 2 (**)	Level 3 (***)	Total
Financial assets at fair value through profit and loss				
Financial assets held for trading				
- Debt securities	220.054.904	-	-	220.054.904
Available-for-sale financial assets				
- Equity securities	-	587.727	-	587.727
Total assets	220.054.904	587.727	-	220.642.631

(*) Financial assets and liabilities are carried at quoted prices in an active market which are used for similar financial assets and liabilities.

(**) Other than quoted prices specified in Level I, financial assets and liabilities are carried at inputs used to determine direct or indirect observable market prices.

(***) Financial assets and liabilities are carried at inputs which are used in determining fair value of financial assets and liabilities but not based on any observable market data.

(i) Capital management

The Bank's shareholders' equity as at 31 December 2014 and 2013 comprises:

	<u>31 December 2014</u>	<u>31 December 2013</u>
Paid-in capital	47.464	47.464
Retained earnings	36.184.785	31.024.507
Other reserves	2.409.830	1.708.496
Total Equity	38.642.079	32.780.467

Movements in shareholders' equity during the year are explained in the Statement of Changes in Equity in the financial statements.

The Bank is not subject to any regulatory requirements concerning the level of capital it must maintain, however the Central Bank Law sets out how the statutory annual net profit for the year shall be allocated. The principal source of capital increase is through retention of the undistributed element of the profit.

Being a non-profit organization, the Bank does not seek profit maximization. Instead it seeks to make a profit commensurate with normal market returns in areas where it conducts normal commercial operations.

The Bank's primary capital management objective is to maintain sufficient capital to absorb unexpected losses arising from the fulfillment of the responsibilities assigned to the Bank by the Central Bank Law. The most significant unexpected losses are likely to arise from support operations and the Bank's role as the lender of last resort or from losses on the foreign currency reserves, should the TL appreciate significantly against other foreign currencies.

In order to maintain sufficient capital and to obtain the necessary liquidity the Bank focuses on low risk investments prudently to earn an appropriate return taking into consideration the credit risk of the counterparty. Additionally, the Bank, in the employment of strategic assets, takes into consideration the risk tolerance of the Bank and gives importance to the protection of the capital and national reserves.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 5 - CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The Bank makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Impairment losses on loans and advances

The Bank reviews its loan portfolio to assess impairment on a continuous basis. In determining whether an impairment loss should be recorded in the income statement, the Bank makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Bank management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

(b) Fair value of equity investments that are available for sale

The equity investment classified for accounting purposes as available for sale, which is held by the Bank for the long term as part of its central banking activities is valued at fair value, which is calculated as being 70% of the Bank's interest in the net asset value of the equity investment. This valuation method has previously been used to establish the appropriate price for purchase and repurchase transactions in the equity investment (Note 9).

NOTE 6 - DUE FROM BANKS

	<u>31 December 2014</u>	<u>31 December 2013</u>
Funds lent under securities purchased under agreements to resell	46.254.099	39.007.450
Time deposits	12.811.378	17.108.317
Demand deposits	3.902.848	4.371.899
Due from interbank money market operations	200.063	74.516
Total	63.168.388	60.562.182

Securities purchased under agreements to resell transactions are performed as part of the open market operations of the Bank.

NOTE 7 - FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	<u>31 December 2014</u>		<u>31 December 2013</u>	
	<u>Cost</u>	<u>Carrying Value</u>	<u>Cost</u>	<u>Carrying Value</u>
Turkish government bonds and treasury bills	9.034.712	9.217.474	9.158.267	8.931.101
Foreign government bonds and treasury bills	222.480.192	222.415.879	203.882.902	203.513.212
Corporate bonds of supranational institutions(*)	6.223.340	6.299.212	7.521.139	7.610.591
Total	237.738.244	237.932.565	220.562.308	220.054.904

(*)Corporate bonds of supranational institutions are coupon and discount securities mainly issued by the European Investment Bank, International Islamic Liquidity Management (IILM), Islamic Development Bank (IDB) and International Bank of Reconstruction and Development (IBRD, World Bank Group).

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 8 - LOANS AND ADVANCES TO CUSTOMERS

	<u>31 December 2014</u>	<u>31 December 2013</u>
Loans and advances to corporate entities:		
Foreign country loans	11.872	12.023
Domestic loans	19.328.800	13.307.134
Total performing loans	19.340.672	13.319.157
Impaired loans	3.560.589	3.272.684
Gross loans and advances to customers	22.901.261	16.591.841
Less: Allowance for loan losses	(3.560.589)	(3.272.684)
Net loans and advances to customers	19.340.672	13.319.157

Movement in the allowance for loan losses is as follows:

	<u>31 December 2014</u>	<u>31 December 2013</u>
Balance at 1 January	3.272.684	2.728.840
Provision charge/(cancellation) for the year (*)	287.905	543.844
Balance at 31 December	3.560.589	3.272.684

(*) The balance mainly consists of the foreign exchange valuation on the impaired loans.

As of 31 December 2014, the restructured loans and advances of the Bank amounted to TL 12.101 thousand (31 December 2013: TL 12.370 thousand). In accordance with the restructuring agreement of the Bank regarding the above mentioned restructured loans, the Bank forwent TL 10.928 thousand (US\$ 4.712.512) (31 December 2013: TL 10.058 thousand (US\$ 4.712.512)) of its interest receivable which will accrue again if the counterparty fails to meet the conditions stated in the restructuring agreement. As of 31 December 2014 and 2013, the Bank provided allowance for such contingent interest receivable.

NOTE 9 - AVAILABLE-FOR-SALE FINANCIAL ASSETS

The details of available-for-sale-securities as of 31 December 2014 and 2013 are as follows:

Name	Nature of business	<u>Ownership (%)</u>		<u>Amount</u>	
		<u>31 December 2014</u>	<u>31 December 2013</u>	<u>31 December 2014</u>	<u>31 December 2013</u>
BIS	Banking Supervision	1,43	1,43	605.164	566.317
International Islamic Liquidity Management Corporation	Liquidity Management	13,33	13,33	23.189	21.343
SWIFT	Electronic Fund Transfer Services	0,007	0,007	77	67
Total				628.430	587.727

The shares of BIS have a par value of SDR 5.000 each and are paid up to SDR 1.250 each. The balance of SDR 3.750 per share is callable at three months' notice by the decision of the BIS Board and the total amount of commitment is disclosed under contingencies and commitments as of 31 December 2014 and 2013 (Note 27).

As of 31 December 2014 and 2013, the Bank's investment in shares issued by the BIS is valued at fair value, which is calculated as being 70% of the Bank's interest in BIS's net asset value in SDR, as of 31 December 2014 and 2013, converted to TL at the year-end TL/SDR exchange rate. This valuation method has previously been used to establish the appropriate price for purchase and repurchase transactions in BIS share.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 9 - AVAILABLE-FOR-SALE FINANCIAL ASSETS (Continued)

The movement of available-for-sale financial assets is as follows:

	<u>2014</u>	<u>2013</u>
Opening balance, 1 January	587.727	539.850
Purchases	-	-
Fair value changes	40.703	47.877
Closing balance, 31 December	628.430	587.727

NOTE 10 - GOLD RESERVES

	<u>31 December 2014</u>	<u>31 December 2013</u>
Gold bullion - International standards	47.307.178	42.850.276
Gold bullion and coins - Non-International standards	284.125	261.997
Total	47.591.303	43.112.273

Gold coins and bullion in the amount of TL 30.898 thousand (31 December 2013: TL 28.491 thousand) are kept in the Bank's vaults on behalf of the Turkish Treasury. Additionally, Gold bullion - International standards include TL 36.926.427 thousand (31 December 2013: TL 33.277.977 thousand) worth of gold kept by the Bank which belongs to the banks those deposited gold in order to meet their reserve requirement.

Deposits for reserve requirement obligations	172.334.420	156.375.051
Current accounts of banks	39.144.478	32.210.886
Total	211.478.898	188.585.937

Required reserves are calculated over total domestic liabilities of banks according to the banking legislation effective in Turkey, after deductions determined in the Communiqué, No. 2005/1 on Required Reserves and deposit/participation funds accepted by banks in Turkey on behalf of foreign branches and loan amounts provided by banks and followed up in foreign branches and are deposited to the Bank. Furthermore, the same rates determined in accordance with the same Communiqué have been used. The Bank stopped paying interest over foreign currency reserve requirements as of 11 December 2008 with the announcement, dated 5 December 2008. The Bank stopped paying interest over Turkish Lira reserve requirements as of 14 October 2010 with the announcement, dated 23 September 2010. The Bank has begun paying interest to the reserve requirements denominated in Turkish Lira on 3 November 2014.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 16 - OTHER DEPOSITS

	<u>31 December 2014</u>	<u>31 December 2013</u>
Deposits by citizens abroad	5.855.639	11.330.375
Deposits of Turkish Treasury	22.966.693	27.393.668

Deposits of state owned entities	37.726	123.537
Total	29.998.564	39.767.473

Deposits by citizens abroad are time deposits with maturities varying from one to three years; other deposits; including deposit of Turkish Treasury; held by government related institutions are interest-free deposits except for the deposits amounting to TL 2.660.983 thousand (31 December 2013: TL 8.237.253 thousand).

The breakdown of deposits by citizens abroad by currency type and related interest rates are as follows.

	<u>31 December 2014</u>		<u>31 December 2013</u>	
	<u>Interest rate (%)</u>	<u>TL</u>	<u>Interest rate (%)</u>	<u>TL</u>
EUR	0,25%-1,00%	5.586.674	0,25%-1,00%	10.828.860
US\$	0,25%	212.154	0,25%-1,00%	403.827
CHF	0,25%	53.766	0,25%-1,00%	92.396
GBP	0,25%	3.045	0,25%-1,00%	5.292
Total		5.855.639		11.330.375

NOTE 17 - DUE TO INTERNATIONAL ORGANIZATIONS

Due to IMF denominated in SDR is included under due to international organizations. Due to international organizations includes borrowings related to Turkey's IMF quota and Africa Development Fund for the year ending 31 December 2014 and 2013. As of 31 December 2014 and 2013, borrowings related to Turkey's IMF quota are non-interest bearing with no stated maturity.

All borrowings from the IMF are guaranteed by promissory notes which have been cosigned by the Turkish Government.

As of 8 June 2011, the country quota of Turkey increased by SDR 264.500.000 reaching SDR 1.455.800.000.

NOTE 18 - OTHER BORROWED FUNDS

	<u>31 December 2014</u>	<u>31 December 2013</u>
Funds borrowed from interbank money market	32.307	208.520
Total	32.307	208.520

Funds borrowed from interbank money market are denominated in Turkish Lira with 7,5% interest rate and maturity at 2 January 2015. (31 December 2013: Funds borrowed from interbank money market are denominated in Turkish Lira with 3,5% interest rate and maturity at 2 January 2014.)

NOTE 19 - OTHER LIABILITIES

Bills and money transfer payables	-	13.560
Blocked accounts for pending court cases	-	21.501
Other	63.167	20.760
Total	1.409.412	1.240.162

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 20 - TAXATION

	<u>31 December 2014</u>	<u>31 December 2013</u>
Corporate tax	1.461.675	889.835
Prepaid taxes	(1.309.995)	(643.421)
Income taxes liability- net	151.680	246.414

Corporate Tax

The Bank is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Bank's results for the period.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

The effective tax rate in 2014 is 20% (2013: 20%).

In Turkey, advance tax returns are filed on a quarterly basis. Advance corporate income tax rate applied in 2014 is 20%. (2013: 20%). Losses can be carried forward for offset against future taxable income for up to 5 years. However, losses cannot be carried back for offset against profits from previous periods.

Furthermore, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1-25 April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

As of 31 December 2014 and 2013, income taxes are summarized as follows;

	<u>31 December 2014</u>	<u>31 December 2013</u>
- Corporate tax	1.461.675	889.835
- Deferred tax expense / (income)	(29.766)	2.003.457
Tax payable/(receivable)	1.431.909	2.893.292

Deferred taxes

The Bank recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes and they are given below.

For calculation of deferred tax asset and liabilities, the rate of 20% (2013: 20%) is used.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 20 - TAXATION (Continued)

The breakdown of such cumulative temporary differences and the resulting deferred income tax assets/(liabilities) at 31 December using enacted tax rates are as follows:

	Cumulative temporary differences		Deferred tax assets/(liabilities)	
	31 December 2014	31 December 2013	31 December 2014	31 December 2013
Retirement benefit obligations	142.191	128.170	28.438	25.634
Net differences between carrying value and tax base of property and equipment and intangible assets	41.231	42.805	8.246	8.561
Other	12.751	11.956	2.549	2.391
Total Assets	196.173	182.931	39.233	36.586
Valuation account to income statement (*)	(22.857.074)	(22.164.507)	(4.571.415)	(4.432.901)
Fair value differences of financial assets	(571.553)	(533.422)	(28.578)	(26.671)
Total Liabilities	(23.428.627)	(22.697.929)	(4.599.993)	(4.459.572)
Net Liability	(23.232.454)	(22.514.998)	(4.560.760)	(4.422.986)

(*) In accordance with the 61st article of the Central Bank Law amended with the Law No:6009 on 23 July 2010, in the event of a change in the value of the Turkish currency against the foreign currencies and a change in the gold prices in the international markets, the unrealized gains and losses arising from the revaluation of gold, foreign currency and other assets and liabilities of the Bank those are originated in foreign currencies are classified into "Valuation Account" which is a transitory account on the balance sheet. The Valuation Account is not taken into account as income and expense in the determination of corporate tax base. Realized foreign exchange differences originated from foreign currency sales and purchase transactions are reflected to the income statement at the date of transaction.

Movement of deferred income tax liability during the year is as follows:

	<u>2014</u>	<u>2013</u>
Balance at 1 January	4.422.986	2.724.309
Deferred income tax charge to income statement, net	(29.766)	2.003.457
Deferred income tax charge to equity	167.540	(304.780)
Balance at 31 December	4.560.760	4.422.986

The reconciliation for taxation charge is stated below:

	<u>2014</u>	<u>2013</u>
Profit / (loss) before income taxes	9.961.866	16.092.221
Tax charge calculated at a tax rate of 20%	1.992.373	3.218.444
Income exempt from taxation	(569.691)	(366.068)
Non-deductible expenses	9.227	40.916
Income tax expense / (income)	1.431.909	2.893.292

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 21 - RETIREMENT BENEFIT OBLIGATIONS

Under Turkish Labor Law, the Bank is required to pay termination benefits to each employee who has completed certain years of service and whose employment is terminated. In addition, according to the 60.Article that has been changed and the laws numbered 4447, dated 25 August 1999 and numbered 2422, dated 6 March 1981 of the Social Security Law still in force, numbered 506, the employees who are entitled to leave the work by receiving termination benefits are required to pay statutory termination benefits. Some transitional provisions related to the pre-conditions of the retirement were removed from the law with the amendment on 23 May 2002.

The amount payable consists of one month's salary limited to a maximum of TL 3.438 (2013: TL 3.254) for each year of service.

The liability is not funded, as there is no funding requirement. The reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. IAS 19 ("Employee Benefits") states that, the Bank's obligations are developed within the framework of defined benefit plans by using the actuarial valuation method. The provisions at the respective balance sheet dates have been calculated based on the following actuarial assumptions:

	<u>31 December 2014</u>	<u>31 December 2013</u>
Discount rate (%)	3,58	3,58
Rate to estimate the probability of retirement (%)	99	99

Additionally, the principal actuarial assumption is that the maximum liability of TL 3.438 for each year of service will increase in line with inflation. Thus the discount rate applied represents the expected real rate after adjusting for the effects of future inflation. As the maximum liability is revised semi-annually, the maximum amount of TL 3.541 effective from 1 January 2015 (1 January 2014: TL 3.438), has been taken into consideration in calculating the reserve for the retirement benefit obligation of the Bank.

Movement in the retirement benefit obligation recognized in the financial statements is as follows:

	<u>2014</u>	<u>2013</u>
At 1 January	128.170	119.290
Service cost	15.063	12.107
Interest cost	4.586	2.827
Paid during the year	(5.628)	(2.942)
Actuarial (gain) / loss	-	(3.112)
Balance at 31 December	142.191	128.170

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

Correspondent bank accounts	4.764	4.826
Other	5.397	11.401
Total	10.161	16.227
Net fee and commission income	394.655	337.171

(***) With the decision of the Board of the Bank numbered 9525/19124 and dated 4 October 2011, Tariffs Regulations has been amended. According to these amendments, starting from 12 October 2011, commissions, charges and fees have been started to be collected from the Prime Ministry Undersecretariat of Treasury due to the transactions with the public administrations within the scope of overall budget.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 24 - DIVIDEND INCOME

	<u>2014</u>	<u>2013</u>
Available-for-sale securities	5.361	6.903
Total	5.361	6.903

NOTE 25 - FOREIGN EXCHANGE GAINS, NET

	<u>2014</u>	<u>2013</u>
Foreign exchange gains/(losses), net		
- translation gains/(losses), net	(138.167)	10.036.949
- transaction gains, net	6.093.678	5.434.322
Total	5.955.511	15.471.271

As of 31 December 2014 and 2013, translation gains/(losses) include the unrealized foreign exchange gains/(losses) and the unrealized gains on gold reserves. In the statutory financial statements of the Bank, the unrealized foreign exchange gains/(losses) and unrealized gains on gold reserves are excluded from the statutory net profit and corporate tax base and monitored in a temporary account on the balance sheet, namely "Valuation Account", in accordance with the Central Bank Law in Turkey.

NOTE 26 - OTHER OPERATING EXPENSES

	<u>2014</u>	<u>2013</u>
Wages and salaries	598.859	564.945
Administrative expenses	156.391	130.292
Social security costs	63.310	45.638
Depreciation and amortization (Notes 11 and 12)	30.592	41.358
Other	2.546	15.668
Total	851.698	797.901

The average number of personnel employed by the Bank during the year 2014 was 4.702 (2013: 4.648).

NOTE 27 - COMMITMENTS AND CONTINGENT LIABILITIES

	<u>31 December 2014</u>	<u>31 December 2013</u>
Guarantees taken	39.747.228	28.702.394
Uncalled BIS shares (Note 9)	100.833	98.685
Total	39.848.061	28.801.079

As of 31 December 2014, there are a number of legal proceedings outstanding against the Bank amounting to TL 4.950 thousand, US\$ 64.596.952 and EUR 225.451 (31 December 2013: TL 2.597 thousand, US\$ 64.596.952 and EUR 222.397). No provision has been made as professional advice indicates that it is unlikely that any significant loss will arise in relation with above mentioned legal proceedings.

THE CENTRAL BANK OF THE REPUBLIC OF TURKEY

NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2014

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated)

NOTE 28 - SHARE CAPITAL

The shareholder structure of the Bank as at 31 December 2014 and 2013 is as follows:

	31 December 2014		31 December 2013	
	TL	Share %	TL	Share %
Turkish Treasury	14	55	14	55
T.C. Ziraat Bankası A.Ş.	5	19	5	19
T.C.M.B Mensupları Sosyal Güvenlik ve Yardımlaşma Sandığı Vakfı	1	5	1	5
Türkiye Garanti Bankası A.Ş.	1	3	1	3
Türkiye İş Bankası A.Ş.	1	2	1	2
Other	3	16	3	16
Paid-in capital	25	100	25	100
Inflation adjustment on paid-in capital	47.439		47.439	
Total paid-in capital	47.464		47.464	

According to 5th article of the Central Bank Law, the capital of the Bank is TL 25 thousand and is divided into 250.000 shares, with a value of TL 0,1 each. The capital may be increased with the approval of the Turkish Government. The shares are divided into (A), (B), (C), and (D) shares. The (A) group shares belongs solely to the Turkish Treasury while (B) shares belong to national banks, (C) shares belong to banks other than the national banks and to companies possessing certain privileges and (D) shares belong to Turkish commercial institutions and to legal and real persons of Turkish nationality.

NOTE 29 - RETAINED EARNINGS AND LEGAL RESERVES

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution in accordance with the Central Bank Law to the employees, Turkish Treasury and other shareholders, subject to the legal reserve requirement referred to below.

The distribution of the profit after tax of the Bank is as follows;

- 20% to the reserve fund,
- 6% over the nominal value of the equity shares to the shareholders as an initial dividend,
- After deducting the above-stated percentages a maximum of 5% of the remaining amount; so as not to exceed two months salaries; to the Bank personnel and 10% percent to the extraordinary reserves,
- Subject to the decision of the General Assembly a maximum of 6% over the nominal value of the equity shares to the shareholders as the secondary dividend.

The remaining balance shall be transferred to the Turkish Treasury after this allocation.

NOTE 30 - CASH AND CASH EQUIVALENTS

	31 December 2014	31 December 2013
Cash	2.159.229	3.822.593
Due from banks (excluding accrued interest)	63.122.341	60.550.324
Total	65.281.570	64.372.917
