Governor Erdem Başçı's Presentation on "Balanced Growth Prospects in Turkey" in Washington DC

Governor Erdem Başçı delivered a presentation on "Balanced Growth Prospects in Turkey" to the US Chamber of Commerce on Thursday, 09 October 2014 at 18:30 p.m. local time in Turkey.

The following points are emphasized in Governor Başçı's presentation:

- Exports remain supportive of balanced growth in spite of weakening global demand.
- Tight monetary policy stance and macroprudential measures are keeping loan growth rates at reasonable levels.
- Declining commodity prices are expected to limit upside risks on inflation.
