

**PRESS RELEASE ON THE METHODOLOGICAL CHANGES IN COMPOSITE  
LEADING INDICATOR (MBONCU-SUE)**

The methodology for the construction of composite leading indicators, published on our web site via “Data / Statistical Data / Composite Leading Indicator (MBONCU-SUE)”, has been revised in order to be accordant with the methodology of OECD. Starting from 14 March 2014, the new MBONCU-SUE, constructed with new methodology, will continue to be published on a monthly basis and will be accessible via same link. Detailed information about methodological changes can be found on our web site via [“Publications / Research / CBT Research Notes in Economics / Methodological Changes in Composite Leading Indicator for Turkish Economic Activity”](#).
