

PRESS RELEASE

15 April 2016

Governor Erdem Başçı delivered a presentation on “Balanced Growth Prospects in Turkey” in Washington DC.

Erdem Başçı, Governor of the Central Bank of the Republic of Turkey, delivered a presentation on “Balanced Growth Prospects in Turkey” on Friday, April 15th, 2016 in Washington DC, in the margins of the IMF-World Bank Spring Meetings.

Governor Başçı emphasized the following points:

- The improvement in the external balance is on track.
- Disinflation is expected to continue.
- Measures taken so far have improved the resilience of the economy.
- Implementation of the announced structural reforms would contribute to the potential growth significantly.
