

Revision Policy for Business Tendency Statistics

Data Governance and Statistics Department

No revisions are made to the results of Business Tendency Survey.

- The responses received are not taken into consideration and the results are not revised after the survey period. In the seasonally adjusted results of the RSCI, model structure, model parameters and outlier observations are reviewed and updated every year but backward revision of the series is not applied.
- Major changes in methodology and statistical techniques are announced on the website of the CBRT in advance.
