

# Revisions Policy for Effective Maximum Interest Rates for Deposits of State Banks

Data Governance and Statistics Department

July 2024

Revisions in effective maximum interest rates for deposits of state banks are made in two ways according to the following rules:

**1. Routine Revisions:**

-There is no routine revision.

**2. Non-Routine Revisions:**

- Data from previous months can be revised if the source data is updated.

-Review of primary statistics, design of new models, methodological changes, and application of new sources of statistics are among the reasons for non-routine revisions. In this context, all unplanned important revisions are announced on the website of the CBRT before the publication of revised statistics. The announcement presents the coverage of and the reasons for the revision.
